- PHP
- Node.js
- Regex
- Ubuntu

## Tools

- Git/GitHub
- Amazon Web Services
- Figma
- Task Tracking (MeisterTask)
- Chrome Dev Tools
- Postman

## EDUCATION

University of  
Southern California  
Business  
Administration

## LearningFuze

Accelerated Web  
Development  
Program

## APPLICATIONS DEVELOPED

### Run-Tracker | [GitHub](#) | [Live](#)

- Web Application that utilizes GoogleMaps **API** and **HTML5** Geolocation functionality to allow users to track and record information about their runs
- Employs **React** and **Redux** to create a global state allowing for permanent log-ins
- Created **MySQL** queries in **PHP** so users can access the database on **phpMyAdmin**
- Handles all **CRUD** operations for the database using **Axios** calls
- Utilizes **SASS** file and **Bootstrap 4** to create a clean mobile responsive design

### Track My Workout | [GitHub](#)

- Content Management System (**CMS**) that utilizes **AJAX** calls to allow users to track their workouts in an easy to use, minimalistic interface
- Employs **JavaScript** in **OOP**, **jQuery**, **Bootstrap 3** to manipulate the DOM
- Retrieves information in **JSON** from a **MySQL** database in **PHP**

### Im Board

- Fully operational E-commerce site created in **React** allowing users to purchase popular board games with or without creating an account
- **CMS** utilizes **Axios** calls to perform **CRUD** operations when purchasing items
- Used **Materialize** and **SASS** to create a custom user interface
- Allows users to create accounts using **Redux** and **Redux-forms**

## PROFESSIONAL EXPERIENCE

### Associate Client Services Marketing Manager | Ingram Micro 2016 - 2019

- Managed a 5-month social media campaign as a project lead that doubled the estimated traffic and received accolades from top level Juniper executives
- Outlined a 3 month "Why Juniper" email campaign that collected 56 potential leads
- Collaborated with Creative team to design and implement over 12 successful events
- Developed a new claiming process in order to recover over \$200,000 in aged invoices

### Purchase Card Buyer | Ingram Micro 2015 - 2016

- Developed a new method for handling purchase transactions saving an average of 8 hours per month for both the buyer and the requestor
- Created monthly expenditure reports of spends of \$2M+ for top level executives

## VOLUNTEER EXPERIENCE

### Web Developer/UX Designer | Peak Meditation 2019

- Created basic landing page in two days using **React**
- Stores subscriber emails in a database using a **PHP** endpoint
- Created 1 main **SASS** file to store media queries to increase display responsiveness

## HOBBIES

- **Bouldering** Next Travel Location: South Africa
- **Hiking** 2019 Goal: Finish the 6 Pack of Peaks Challenge
