Purchase Card Buyer| Ingram Micro   2015 – 2016
- Developed a new method for purchase transactions saving an over 8 hours/month
- Created monthly expenditure reports of spends of $2M+ for top level executives

APPLICATIONS DEVELOPED

Run-Tracker | Run Tracking Mobile Responsive Web App GitHub | Live
- Used React and Redux to allow users to permanently log-in
- Created MySQL queries in PHP so users can access the database on phpMyAdmin
- Handled all CRUD operations for the database using Axios calls
- Utilized SASS file and Bootstrap 4 to create a clean mobile responsive design

Track My Workout |Workout Journal with CRUD capabilities GitHub | Live
- Utilized AJAX calls to allow users to track their workouts in an easy to use, minimalistic interface
- Employed JavaScript in OOP, jQuery, Bootstrap 3 to manipulate the DOM
- Retrieved information in JSON from a MySQL database in PHP
- Created a Cron Job to call a PHP script to reset inputted data every hour
